(Mexico, MO) The Audrain County Health Department (ACHD) reports that approximately 71 county residents have been tested for COVID-19. One case has been confirmed as positive, 70 are negative, and no test results are pending. No testing was completed yesterday. ACHD will continue to provide a daily COVID-19 report, Monday through Friday, regarding county testing information.

The Missouri Statewide Stay at Home Order issued by Governor Parson on Friday, April 3, 2020 was extended and the Order will continue through May 3rd, 2020.

What You Can Do to Decrease the Risk of Contracting or Spreading COVID-19 by:

- Avoiding contact with people who are sick.
- Covering coughs and sneezes with a tissue.
- Frequent handwashing for at least 20 seconds.
- Avoid touching your eyes, mouth, and nose with unwashed hands.
- Disinfect frequently used objects and surfaces.
- Staying home when sick and avoiding travel to affected areas.
- Practicing social distancing (remain at least six feet away from others) is key to preventing the spread of this virus both to yourself and to others.

Each of us must continue to use the crucial preventative health safety precautions listed above to help keep ourselves and our community safe.
